Shervin Babaei

Full-Stack Software Developer

Vancouver, BC | Email | Portfolio | GitHub | LinkedIn

SUMMARY

Full-Stack Developer & BCIT student (88% GPA, graduating May 2027) seeking a Co-op, Internship, or Junior Full-Stack role. Experienced in building, testing, and deploying web applications with REST APIs, cloud databases, secure user login systems, Docker containers, and automated delivery pipelines. Top 6 of 36 teams at Hack the Break 2026.

EDUCATION

British Columbia Institute of Technology (BCIT) ***Expected May 2027***

Diploma in Full-Stack Web Development (88% GPA)

- *Coursework:* Data Structures & Algorithms, Object-Oriented Programming, Web Database Technologies, JavaScript Frameworks & Server, C# & ASP.NET Web Application Development, Agile Software Development, UI/UX Development

TECHNICAL SKILLS

- **Languages & Core:** TypeScript, JavaScript (ES6+), Python, SQL, C++, HTML5, CSS3
- **Frontend Engineering:** React, Next.js, Vite, Tailwind CSS, shadcn/ui, Chakra UI
- **Backend & Cloud Systems:** Node.js, Express.js, FastAPI, RESTful APIs, WebSockets, Python asyncio
- **Database Architecture:** PostgreSQL, MongoDB, Supabase, Redis, SQLite, Drizzle ORM, Mongoose, Sequelize
- **DevOps, CI/CD & Security:** Docker, Docker Compose, Git, GitHub Actions, AWS (EC2, S3), Vercel, Nginx, OAuth 2.0/JWT, RBAC
- **Testing & Applied AI:** Vitest, Playwright, pytest, Integration Testing, Claude Code, Cursor, OpenRouter, Ollama, LangChain

PROJECTS & PRODUCTION EXPERIENCE

SignalDesk — AI News Intelligence & Cross-Source Analysis Platform ***Oct 2026 – Nov 2026***

Role: Solo Developer | *Stack: Python, FastAPI, React, TypeScript, PostgreSQL, SQLite, Docker, GitHub Actions*

- Architected an automated news analysis system combining text matching with smart semantic search to group coverage and compare conflicting story claims across outlets.
- Built isolated user workspaces equipped with secure session tokens, IP rate limiting, and defensive web security protections to safely process feeds.
- Created a comprehensive system health dashboard tracking response speeds and feed uptime, backed by containerized workflows and automated code testing.

Network Growth Assistant — Full-Stack Networking Platform ***Oct 2026 – Present***

Role: Solo Developer & Architect | *Stack: Next.js, React, TypeScript, PostgreSQL, Supabase, Vercel, Vitest, Playwright*

- Built a full-stack outreach and job-application tracker featuring verified contact discovery, live link health checks, and detailed networking metrics.
- Enforced tenant data isolation via PostgreSQL RLS and maintained production reliability with 1,500+ automated unit and E2E tests in GitHub Actions.
- Integrated automated background job processing for contact verification and rate-limited API retries using exponential backoff retry routines.

SkillMatch — Workshop Discovery Marketplace ***Apr 2025 – May 2025***

Role: Backend & DevOps Lead | *Stack: React, TypeScript, Node.js, Express, MongoDB, Mongoose, JWT*

- Delivered end-to-end workshop registration, QR ticketing, and review systems equipped with secure login and role-based access for students and instructors.
- Reduced initial page-load latency by 18% via route preloading, React bundle code-splitting, and background server pings to eliminate database delays.
- Designed advanced database indexing strategies utilizing compound geospatial and text search indexes to instantly filter categories during high traffic.

GitScribe — AI Conventional Commit Generator (Hack the Break 2026 — Top 6 of 36) ***March 2026***

Role: UI/UX & Frontend Lead | *Stack: React, TypeScript, Chakra UI, Auth0, FastAPI, OpenAI*

- Built responsive user sign-in, navigation, and profile interface screens from Figma mockups during a fast-paced 24-hour team hackathon sprint.
- Reduced onboarding friction by ~30% by bypassing manual forms and routing users straight to GitHub single sign-on (SSO) via Auth0 authentication.
- Developed an AI tool that compares code file versions to generate standardized commit descriptions, securing Top 6 of 36 teams at Hack the Break.
